

Honeywell AC4000 Air Cart

Designed with portability in mind

The Honeywell AC4000 Air Cart is a mobile air source for NIOSH-approved supplied air respirators. The easy-to-use Air Cart provides a continuous supply of breathing air for up to four workers and is an ideal solution when location and/or freedom of movement are a factor. The unit is durable with a lightweight, aluminum frame and includes several features that promote safety, mobility, and maneuverability.

FEATURES & BENEFITS

- Provides a continuous supply of breathing air for up to four workers, which saves room in a confined space
- Workers can swap out cylinders while in use to increase productivity and limit downtime
- Supports multiple cylinder durations (30-minute, 45-minute, or 60-minute) with a 2-cylinder capacity
- Available for use with both low pressure (2216 psig) and high pressure (4500 psig) air supply systems
- Aluminum frame is compact, lightweight and durable for ease of operation
- Includes dual hose hangers for organized airline storage, reducing tripping hazards when in use and enhancing ease of transport.
- Telescopic handle retracts when cart is stationary for safety and pulls out when in transit for better mobility
- Large wheels allow for easy maneuverability
- For use with Honeywell supplied air airline hoses and Hansen or Schrader couplers
